Cool!

See attached for revision w/charity, share answers here to the listed questions when available (use bulleted lists, see 'Bulleted Lists.jpg' for ref)

Yes, that looks right.

On Sat, Oct 31, 2020 at 7:37 PM Justin Reina <justinmreina@gmail.com> wrote:

Ok, does this look correct?

For food I spend from \$30 to \$60 but that's when I go out with friends cuz my parents buy home food.

Clothes & shoes-\$50-200

Fun-\$50

Gym- \$35

YouTube videos- ( prolly not accurate might spend a lot more than I think) \$20-100

On Sat, Oct 31, 2020 at 5:40 PM Justin Reina <justinmreina@gmail.com> wrote:

Like for food, I spend \$50 a month typically with the upper balance of 100 bucks

For movies, I go once and spend about \$20 per month

Etc...

With all my budget items added together, my budget falls in the range of \$X - \$Y per month

What do you mean by gen, upper, lower bound estimates?

On Sat, Oct 31, 2020 at 5:30 PM Justin Reina <justinmreina@gmail.com> wrote:

Hi,

Please share estimates for your budget requirements right now, with general upper and lower bound estimates
