## Questions

1. When do you graduate high school?
2. Where do you plan on living after high school?
3. Where do you go to school now?
4. The questions on next steps, 'A'-'E' were on "*what you think they would say*", not what they actually would say!
  - a. Repeat 'A' – 'E' as what you think they'd say

## Thesis Explore

I am fresh out the door now ready to begin, boy this looks exciting; so much to be had!

Preparation will be needed for success here - patience and focus, I will get my stable income and a happy life but this will take practice, establishing consistency and discipline will become principal

## Brainstorming

- I see distinct, high-returns from preparing you for success right now, you have much potential & skill
- I would like to form this content to a 1-2 page summary sheet with counselor to discuss further
- ... and from that – we shall see!
