Hey guys,  
Great! Interested to see where this goes.

**Moses:**

- Junior in high school (almost 17, out by Seattle)
- Sharp with interest & capacity - Media, Physics & Engineering
- Eloquent with description - Articulate and attentive

**My Thoughts:**

Moses and one of his siblings has the prospect for leadership next. I have spent a bit of time with this family, a rich movement<sup>1</sup> stateside today.

From my efforts in engineering, entrepreneurship, ministries and outreach, will it be engineering & sciences? Outreach & services? Church<sup>2</sup>? To be seen... he is fresh!

**My Desires:**

- Exposure to your team's intellect, capacity and skill has premier value now, wetting his wick for the waters ahead
- Greetings and a hello, see what is there for you guys
- Straighten him out, much volume and distraction around him now

These are my thoughts, I think a meet & greet next may be best served

Best,  
Justin

Notes:

1. Eldest sister into nursing, youngest fresh into acclaimed [SPU](#) for engr this year
2. e.g. our next [Didier](#)? ... starting his own church ([ref](#)) stateside amongst sabbatical, to chat)
3. I type a lot when I get excited, my apologies 🙄
